

Jamestown (Postcard History)

Jamestown, named for James Prendergast, evolved from the first settlement in 1810 at The Rapids on Chautauqua Lakes outlet. His sawmill, erected in 1811, used the available waterpower to help expand the settlement. Continued use of the waterpower and the areas abundant natural resources developed the manufacturing of furniture, textiles, and tools. Lumbering, farming, and industries undertaken by the hardworking settlers transformed Jamestown into an internationally known city with fine homes, successful businesses, and recreation opportunities on the lake and in the surrounding countryside.
