

The Bronze Bow, Teacher Guide

Children who are asked to read slightly above their comfort level will develop into superior readers. Reading requires an active, discriminating mind that is challenged to think, compare, and contrast. Our literature study guides train students to become active readers. They focus on vocabulary, spelling, comprehension, and composition skills. The Bronze Bow by Elizabeth George Speare is the journey of a Jewish boy at the time of Christ from blind hatred to the acceptance and understanding of love.
