

# The Handbook of Scholarly Writing and Publishing

The Handbook of Scholarly Writing and Publishing is a groundbreaking resource that offers emerging and experienced scholars from all disciplines a comprehensive review of the essential elements needed to craft scholarly papers and other writing suitable for submission to academic journals. The authors discuss the components of different types of manuscripts, explain the submission process, and offer readers suggestions for working with editors and coauthors, dealing with rejection, and rewriting and resubmitting their work. They include advice for developing quality writing skills, outline the fundamentals of a good review, and offer guidance for becoming an excellent manuscript reviewer. One of those rare books that will teach you something new every time you pick it up. It belongs on the desks of emerging scholars and writing professors everywhere. Nancy L. Zimpher, chancellor, The State University of New York Rocco and Hatcher have done every scholar, doctoral student, and committee chair a huge favor by putting this book together. Now in one place we can find resources to help graduate students and scholars get over their writing blocks and fear of writing, and learn how to write successfully. Alan L. Carsrud, Loretta Rogers Chair of Entrepreneurship Research, Ryerson University, and associate editor, Journal of Small Business Management This handbook performs a valuable service by collecting the wisdom of scholars from different disciplines and countries and offering publishing guidance that is both rigorous and systematic. Everyone who writes for scholarly publication will benefit from the insights provided by this book. Tom Radko, editor, Journal of Scholarly Publishing
